APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use, and manner of use of waters of Donna Schee Spring as heretofore granted under Permit 5299, Certificate 2644, is issued subject to the terms and conditions imposed in said Permit 5299, Certificate 2644, and with the understanding that no other rights on the source will be affected by the change proposed herein. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the 100 head of cattle served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0031 cubic feet per second, or sufficient water to water 100 head of cattle.

Item 15. Remarks

On the original Application No. 5299 Certificate 2644 filed by Fred C. Hummel, the spring name was given as "Dunnisher Springs" and no tie was given as to the location of this spring. The place of use has also been determined to be incorrect on the original application; the SE 1/4 SW 1/4 of Section 30 was listed as the location of the spring.

Amended Permit No. 15586 was filed by Leslie R. Hummel on this spring and the name was given as "Dunnashee Spring." This permit was cancelled on February 8, 1961.

Our field investigation shows that there is only one spring in this area. The correct spelling of the name of this spring should be "Donna Schee Spring."
